

'Scrub'

This type of mats are manufactured using polypropylene yarn, knotted and embedded into a water resistant gel backing. It features a 4 rows of side-by-side ridge design which is very effective in cleaning shoe soles, removes moisture, salt residue, dirt and debris, keeping the floors clean for longer periods of time.

'Scrub'

It can also be used as wall-to-wall entrance carpet for most elegant and pleasing interiors and is usually your second line of defense against all kind of dirt or use it like loose area rug.

'Scrub'

It is recommended for moderate to heavy traffic and is easy to clean with vacuum or steam extraction.
